## Temporary Open-air Theatre and Café

This option proposes to make use of the barn and surrounding landscape as a temporary staging area for performances, and a Cafe/bar for use in the Summer. Either the stage, the seating or neither can be under-cover.

The venue can be used for performances by the local community. The form of the barn offers the possibility of arranging the stage in multiple configurations, allowing both the stage and the seating area to be tailored to each performance.

The landscape and lawn area offer an ideal setting for a temporary Café / picnic area during the Summer months. The Café could also become the focus for local Food-fairs, showcasing local produce.

### Art and Sculpture Garden

This option proposes the use of both the barn and the surrounding landscape, to showcase art from local communities. The barn structure offers a dramatic backdrop for displayed art-works. The space can be covered or left uncovered.
